Paisley made thread & thread made Paisley!

A Family of Threads is a community based project run by Paisley Thread Mill Museum during 2017 as part of the Year of History, Heritage & Archaeology.

Join us to research Renfrewshire & Paisley's thread industry from 1722.

Visit schools to give talks, provide artefact boxes and provide stitching workshops.

Visit care homes with memory boxes, old movies and talk to residents about their thread memories.

We are also running an oral history programme talking with former employees of J & P Coats.

Visit our Touring Exhibition.
(Check the website for locations and dates)

Email us on info@afamilyofthreads.info if you would like us to visit your school or care home or would like to volunteer for any part of the project.
